Once payment is received, the study materials will be mailed to the primary contact mailing address.

Exam Information

Important! The current programs offered are Flatwork Associate or Advance Flatwork Finisher. Advance-level certification is only for those with 4,500 hours of on-the-job finishing experience (approx. 3 years of regular full-time work). We **do not offer** the 1,500-hour work experience option with passing a performance exam as we do not conduct performance exams.

Advanced Flatwork Finisher **work experience form is required**. Carefully review the work experience form instructions, and kindly note that verification of the work experience by the candidate's employer(s) is required. You can access the Advanced Flatwork Finisher **work experience form here**.

To **learn more** about the Concrete Flatwork Associate and Advanced Finisher program, visit www.concrete.org

Change/Cancellation policy is available on our [website](#).
