

2019 November WA ACI CHAPTER MEETING

Wednesday, November 20, 2019 – IVARS Acres of Clams @ Pier 54 | Seattle | ivars.com

5:30pm Registration Opens & Reception in Bar // 6:30pm Dinner // 7:15pm Presentation

A bold and rejuvenated Seattle Waterfront development plan is underway. The Seattle waterfront has changed dramatically over the last 5 years with showcase projects including the new Elliot Bay Seawall and makeover of the Seattle Aquarium. With the Viaduct removal completed, this opens up a whole new set of possibilities and concrete will be used in a myriad of applications of pedestrian and open space. Waterfront Seattle will rebuild Alaskan Way over a span of 17 blocks from Pioneer Square to Belltown and include 9 acres of public open space.....

Presented by: Jessica Murphy PE; Sr Project Manager at the City of Seattle, Office of the Waterfront and currently serves as the Construction Program Manager for the City's \$700M Waterfront Program and Project Manager for the \$100M Overlook Walk project. Jessica is a long-time project manager for the Seattle Department of Transportation (SDOT) overseeing such projects as the Elliott Bay Seawall Project, S Lander St Bridge Project, First Hill Streetcar and countless paving projects.
